School plan 2015 – 2017

Dapto High School - 8204
## School background 2015 - 2017

### School vision statement
To feed curiosity and success by creating a culture of lifelong learning, all the while recognising the diverse needs of all learners.

### School context
Dapto High School is proudly comprehensive, occupying a magnificent site bounded by the picturesque Mullet Creek and the main south coast rail line. Much of the 15 hectares is taken up by our extensive farm and playing fields. The school is committed to modelling a responsible approach to issues of sustainability and climate change. Staff, students and parents are collaborating to improve learning outcomes; a focus on digital learning is central to this endeavour, particularly reflected in Teacher Professional Learning programs. Our school offers a strong student wellbeing program aimed at supporting students to develop their potential as learners and as citizens. Active links to community based agencies are fundamental to our approach. A broad curriculum is offered, including an excellent suite of vocational courses. Sporting opportunities are a strong tradition and cultural activities highly valued. Parent and community participation is treasured. The school is an active participant in the Dapto Learning Community, comprised of a TAFE College, two high schools and five partner primary schools. 'Engaging with Asia' is a whole of school curriculum focus, as is Autism.

### School planning process
The Dapto High School planning process has been highly consultative engaging a broad variety of members of the Dapto community. Students, teachers, non-teaching staff, and parents and carers have been involved in the preliminary process in determining our strengths and our vision for Dapto High School, as well as having a voice in creating the three strategic directions for the school plan. Additionally staff at Dapto High completed the "Focus On Learning" survey providing invaluable data on classroom and school effectiveness and practices, which provided further evidence to support the strategic directions taken in the school plan. A school planning team representative of all elements of the school and community, and the executive team have met regularly to discuss the plan and to be involved in each stage of the planning process. It is through ongoing collaboration with the school and the community this plan is a representation of our collective vision and our educational goals for Dapto High School.
Purpose:
To provide opportunities for students and staff to be inspired, engaged and connected to learning. To create a climate of educational and personal exploration across the community, where everyone is a learner.

Purpose:
To create a safe and respectful learning environment where students and staff are encouraged to be creative, innovative and resourceful. To develop well-rounded individuals who actively lead and manage their learning.

Purpose:
To nurture a school and local community that fosters high expectations in student and staff engagement and wellbeing. To develop successful, connected global citizens in a coordinated and considerate manner. To ensure that our shared vision of safety respect and learning contributes to the growth of the Dapto community.
## Strategic Direction 1: Learn

<table>
